

Bee Craft - A fun craft to work on fine motor skills. Brush some glue onto a paper plate. Set out pieces of yellow and black construction paper. Have kids rip up the yellow paper and place the pieces onto the glue. When the plate is covered, put stripes of glue over it. Have kids cut black stripes or rip up black paper into pieces. Place the black paper over the glue to give the bee his stripes. Use the remaining black and yellow paper to create a head, face and antennae for the bee
