

SHAPES MATCH UP

Math : Shape Matching

Print out the shapes mat and either laminate or slip into a page protector.

Print the cat shape cards, laminate, and cut out.

Have kids match the shaped cat cards to the same shapes on the mat.
Continue until they have filled the mat.

Alternate ways to play:

Keep the cat shapes page as a mat (don't cut out) and laminate or slip in a page protector. Use these mats like a bingo game. Have kids cover the shape cats with plastic chips or cubes.

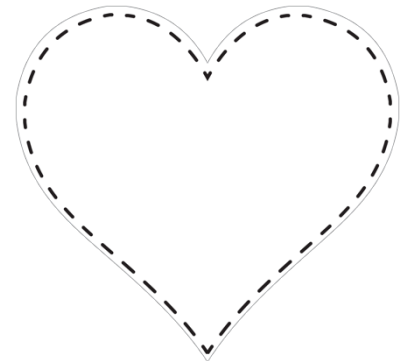

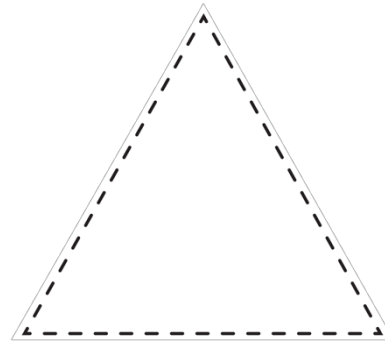

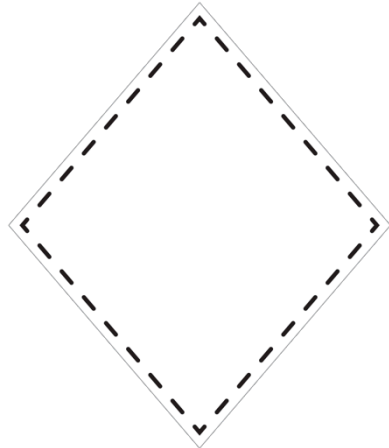

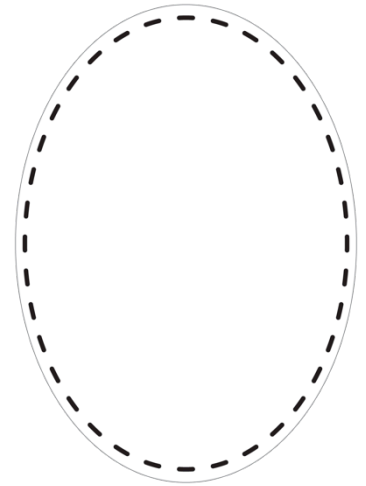

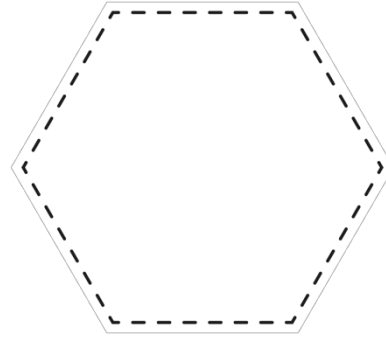

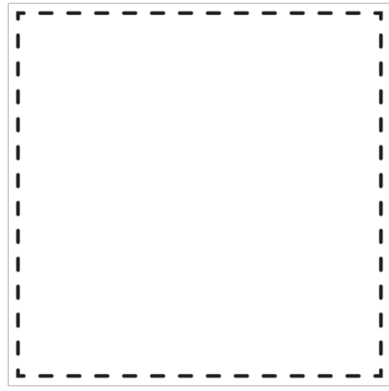

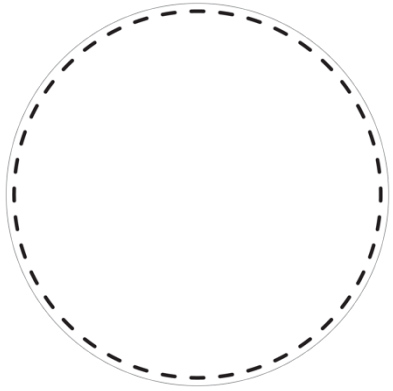

Or, make two sets of cat cards and cut them all out. Use the pieces like the traditional game of "memory".
